I am indeed happy that a fresh batch of students are passing out from the institute today with conferment of and Accreditation Council (NAAC) in 1999 and A+ level in 2006.

Over the years, Loyola has produced many star students. Among its famous students are the Central Ministers Thiru. P. Chidambaram, Thiru Dayanidhi Maran and the Tennis star Thiru. Vijay Amritraj.

Loyola College also has the credit of being one of the few institutions which educate physically challenged students. I am glad to note that with a community FM Radio service, the college is reaching out to more people than it ever had.

The college strives hard to make the students competent, committed and compassionate which is the core of the Jesuit Education. This is what makes Loyola stand above the rest.

The commitment to the community especially to poorer sections of the society, has made Loyola College stand distinguished above the rest of the institutions in the country. The adoption of 18 slums in this city is a standing example of its commitment to the community.

degrees. It is a great moment for all of you to cherish in life and this more so to the parents to see their children successfully coming out of the college.

As mentioned in Thirukural

As our President Dr. A.P. Abdul Kalam has reiterated during his interaction with the students, I would like to reiterate that the young, energetic and fresh graduates coming out of Loyola College should dedicate themselves for the upliftment of the society and the growth and development of our motherland.

At this point of time, I take this opportunity to wish all the fresh graduate students a very bright and prosperous future and wish them all success in their future endeavour.

As Robert Frost said:

The woods are lovely,
dark and deep
But I have promises to keep,
And miles to go before I sleep,
And miles to go before I sleep

I wish all continued success to the college and thank the management for having invited me to be the Chief Guest to share my thoughts on this momentous occasion.

Thank you all
