#### **The chief guest's motivated speech:**

The chief guest Dr. L. Selvanathan's speech was inspiring and motivating. In his simple and exemplary speech, he said,

"Be truthful to yourself, be brave, follow the right path, the world will understand your situations, there will be good persons like you. Don't follow any short cuts if you want to achieve your goal in life you have to put your effort and work for it".

The following message of the chief guest touched the souls of the students.

- It is very important mission to sensitize our youth on the subject of drug abuse. Drugs are destroying the lives of our youth and putting their future in darkness. The use of drugs is making their lives vulnerable and prone to destruction. Therefore, it becomes very important to raise awareness about it amongst the youth and prevent them from succumbing to it.
- Parents can play a key part in teaching their children about alcohol and drug use by talking honestly and openly about the harmful effects that alcohol and drugs can do to their children's health, college work, and relationships.
- I am a believer of God .God is not anywhere outside, do not search for God in temples or in any other place. God's presence is in each and everyone of us. Be truthful to yourself. Do not blame your situations for your failure work hard to succeed but never give up in your life . If you want to achieve your goal work hard you will definitely succeed in life and make a change in this society.

After this few students had organised an entertainment programme. There was a song performance by Hizic Band followed by mime performance, which lightened the atmosphere and made it more memorable. On the whole, the programme was a grand success and can definitely be considered as one of the important events of this academic year.
