Department of B.Com (Accounting & Finance)

Industry Connect Webinar

On the 26th of November 2021, the department of B.Com (Accounting & Finance) organized a webinar session for the 2nd year B.COM Accounting and Finance students. The event was successfully conducted, using the platform zoom from 2.00 - 3.30 p.m. The session began with a short and brisk welcome address and chief guest introduction given by Joshua M Sudeep (21-UAF-016) and Sanjay (20-UAF-027) respectively.

The chief guest of the session was Mr. Rahul Agarwal who was able to firmly establish the overall theme of the session with his brief intro about the topic "Behavioral Biases and Decision Making". The medium of conveying the topic was executed with the mix of using informatory and interesting videos. The presentation dealt with aspects of psychological actions of the general public, and detection of the great minds such as Daniel Kahneman, Charlie Munger, Nassim Nicholas Taleb, and others to further consolidate his content for better comprehension. The chief guest delved deep into the subject by introducing numerous sub-topics like Kantian fairness tendency, framing effect, gambler's fallacy and mental accounting.

The session was concluded successfully with the vote of thanks given by Roshan Akthar (20-UAF-038).

The image shows a Zoom webinar interface. The main content area has a blue background with a white box containing the text "Behavioral Biases & Decision Making". Below this, it says "Created By: Rahul Agarwal, CFA". On the right side, there is a vertical list of participants with their names and profile pictures. The participants listed are: Rahul Agarwal, Hariharan Balaji, Mani A S, 20-UAF-024 S.U..., Sai Kishan 2021, and 21-UAF-016 Jos... Nagamani M.

Conclusion

So we learnt that the purpose of creating a checklist is to avoid obvious and predictable errors. Checklists promote analysis and rationality and eliminate the distractions that often cloud complex decisions.

Put simply, checklist acts as the final circuit breaker in a decision-making process.

A checklist is a way of managing your own mind and guarding against your own specific follies. In the end, checklist is not a mere formula but a means of self awareness
