

AR / VR WORKSHOP by Monolith

Resource People: Monolith Team

Date: 07.01.2023

Venue: Drawing Studio

Monolith team explaining Extended Reality XR

The AR / VR workshop by Monolith was held on 7th January 2023 at the department Drawing Studio. It commenced at 11:40 AM and concluded by 1:10 PM. The workshop began with an introduction given by the Monolith team, of which our alumnus Mr. Sriram is a member of.

The students were shown and explained about what AR and VR is. A well-organized PPT was presented by the Monolith team which made the workshop even more interactive. After a while footage from movies such as Star Wars, Saving Private Ryan, and Jurassic Park were shown in VR.

In the last segment, the Monolith team showed us clips of people who had tried VR, their experience and how it had an effect on their minds. They also explained the fields in which VR is being used such as gaming, training, tourism, and medical health.

To sum it up, the Monolith team presented the topic with enthusiasm and were interactive throughout session. The students found the workshop innovative, interesting, and useful.
