LOYOLA INSTITUTE OF FRONTIER ENERGY(LIFE)- LOYOLA COLLEGE

Loyola College, Chennai, established in 1925 is a Jesuit institution. It has been ranked 2nd in All India category of colleges by NIRF, MHRD, Govt. of India.

Loyola Institute of Frontier Energy (LIFE) is an interdisciplinary and collaborative research institute in Loyola College started by Rev. Dr Francis Xavier, S.J, in 1995 with a team of six like-minded Professors from the departments of Chemistry, Physics and Zoology. The basic tenet of LIFE is border-less, collaborative, and interdisciplinary research in science with a balance between pure and applied sciences with the ultimate view of translating the fruits of research for improving the quality of life of the society. The thrust areas are: Energy, Environment, Material Science, Bioethics, Awareness Education to Students and the Masses.

LIFE is recognized as the centre of Excellence of Loyola College which has been given the special benefit of 175% tax exemption in Loyola campus.

CAAS RESEARCH FOUNDATION

Centre for Advanced Analysis and Strategies (CAAS) is an organisation formed to carry research on finance, marketing and industry. Later, the organisation expanded its activities to carry on research and developments in socio economic issues. It is also involved in conducting, promoting, organizing meetings, conferences, discussions, seminars, workshops, industry visits. CAAS Research Foundation is an independent organisation with highly qualified team as its part and also senior scholars as advisors. The organisation has experience in research on “Balkanization of Indian states – whether small is wonder?” and “Gulf between Plan and Execution” and the reports were submitted to concerned authorities. The researches were self-funded and self-motivated. The organisation has also taken responsibility in conducting several researches in regular interval.

THEME OF THE WORKSHOP

Writing a research Funding project proposal for any field of interest is a skill that will be useful for the society. Many proposals are written to various national or international or private funding agencies but a very few project proposals get selected for funding. In Recent days funding Agencies Select Proposals based on SOLUTION PROVIDER IN PLACE OF JUST INVENTOR Most of the research project proposals are rejected due to lack of innovations and beneficial outcomes. The proposal is not a fixed blueprint in which one can predict one’s findings beforehand. The ultimate criterion for writing research project proposal is to convince the members of the project selection committee. Focusing on the new, current, clear and relevant area of research topics with proper methodologies is one of the important basic requirements for a winning proposal. Having a wider and deep knowledge on research project proposal is essential. Loyola Institute of Frontier Energy (LIFE), Loyola College, Chennai and CAAS Research Foundation, Chennai are jointly conducting a Two-Day National Level Advanced Workshop on ““Effective Strategies in Research Funding and Intellectual Property Rights Proposal Writing ” on February 09 & 10th, 2023 at YD Hall, Loyola College, Chennai – 600 034, India.

AIMS OF THE WORKSHOP

- To conduct a two-day workshop that is helpful for tapping financial resources from funding agencies to Researchers, Scientists, Guides, Co-ordinators from Universities, Colleges, Research Institutes and R & D Institutes.
- To provide necessary knowledge about the different fields of research and the available funding agencies nationally and internationally.

Finalized Funding Proposals can be Applied on Side line of Workshop with finalising Budget in the light of inputs from CAAS Experts, Members of Funding Agencies and leaders of the Industry.

- To empower the project proposal writers with effective strategies that convince the funding agencies.
- To explain the participants about the challenges and opportunities in project proposal writing in India.
